馬場牛

BABA BEEF Wagyu Premium A5

Definitions for Baba Beef

- the Japanese Black cattle breed,
- beef cattle that are fattened up and properly controlled at Baba farm (Yokohama, Miyagi Prefecture)
- meat sold in markets and exhibitions with the approval of the board of directors,
- beef meeting the beef carcass trading standards of the Japanese Meat Grading Association at Grade A5 or B5 and B6S (Beef Marbling Standard) at ten points and up.

Our cattle are fed and fattened up with rice, bread and a rich abundance of well water (good water). The rice we use to feed our cattle isn't animal feed, but fragrant, delicious rice. This is our feeding method at Baba Farm after many years of trial and error, with the extensive experience and outstanding skills of Baba Farm, we can produce fatty meat, that's sweet and juicy, which is the specialty of Baba Beef.
